About the Course:

Church Planting Essentials (CPE) is a course designed specifically to facilitate planting new churches. This course is going to focus on churches that are also seeking developing a strategy for renewal. As a result of this course, churches will develop specific strategic plans that will lead them step by step into a strategic plan for reaching their community. Lifelong Learning Credit is available for this course.

Extra Benefit:

For churches that are in the Texas part of the district, taking this course and submitting your plan to the DAB could qualify you for a grant from the Texas Fund set aside for church planting and church renewal. Details can be discussed with the District Superintendent.

Registration:

Registration can be completed through the district website (www.nmnaz.com). Find the training under the Events Tab under the CALENDAR tab.
